DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The last paragraph of claim 2 raises an issue of indefiniteness because the expression "within the extent of error to the distance between the first and second active areas" does not provide a definite dimension or a dimensional perception since it lacks a comparative reference to imagine said "error".

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Refer to PN: 4,415,869r.

Claims 1,3-15 are allowed.
